

LGBTIQA+ and Freedom of Religions

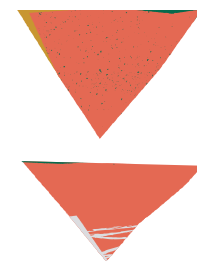

In Indonesia, **LGBTIQA+** communities viewed as a **moral threat** – condemned by religion and, increasingly, by law. **LGBTIQA+** increasing **persecution**, **punishment** and **public humiliation** as the Muslim-majority nation loses tolerance for what it perceives to be moral crimes.

STORYTELLING: THE MOST POTENT TOOLS FORB

Oftentimes we as **LGBTIQ+** have very limited chances to speak up about **religion** and **belief** and make our voices heard. For me, **Personal narratives** can break down **barriers** and **humanize** the challenges and **successes** of individuals **striving** for religious freedom.

menjijikan.. tuhan menciptakan Adam dan hawa, bukan Adam dan Bambang atau hawa dan dewi
